ABOUT US

TRUSTED OFFICE FURNITURE SOLUTIONS SINCE 1982

With over 40 years of experience, DSOP Office System & Supplies Sdn. Bhd. has grown to become a trusted name in the office furniture industry. Established in 1982, we are proud to have built a strong reputation for delivering quality, reliability, and exceptional service to businesses of all sizes across Malaysia.

Our comprehensive range includes workstations, executive desks, office seating, storage solutions, boardroom tables, and custom-made furniture tailored to meet the evolving needs of modern workspaces. Whether you're outfitting a corporate office, home office, or co-working space, we offer thoughtfully designed products that combine functionality, comfort, and style.

At DSOP, our commitment goes beyond furniture —we aim to create inspiring work environments that promote productivity and well-being. Backed by decades of industry expertise, a dedicated team, and a passion for excellence, we continue to innovate and support our clients every step of the way.

Strong delivery network and well-established delivery system ensuring timely and secure delivery.

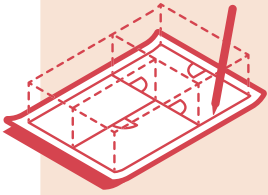

Carefully sourced materials and strict quality control standards to maintain high performance products.

Supportive sales and after-sales team and experienced delivery and installation crew work with care to bring your vision to life.

SPACE PLANNING

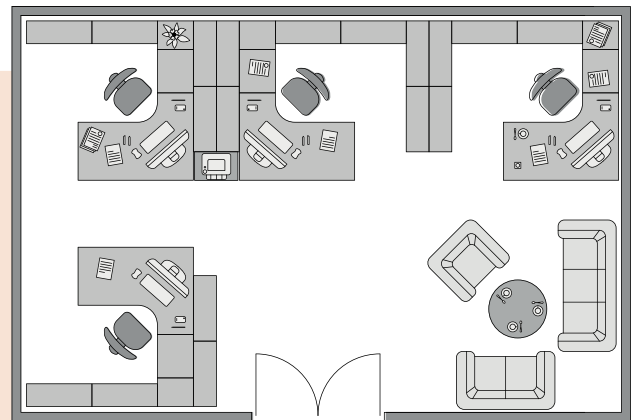

Correct planning ensures you are getting the most out of your workspace. We offer space planning services which utilise the maximum capacity of your workspace safely and efficiently.

Our experienced team uses the latest software to ensure full planning services, from site surveys and 2D plans to walk-through 3D visualisations. Just give us your measurements, and we will create and suggest possible layouts to enhance your existing office space.

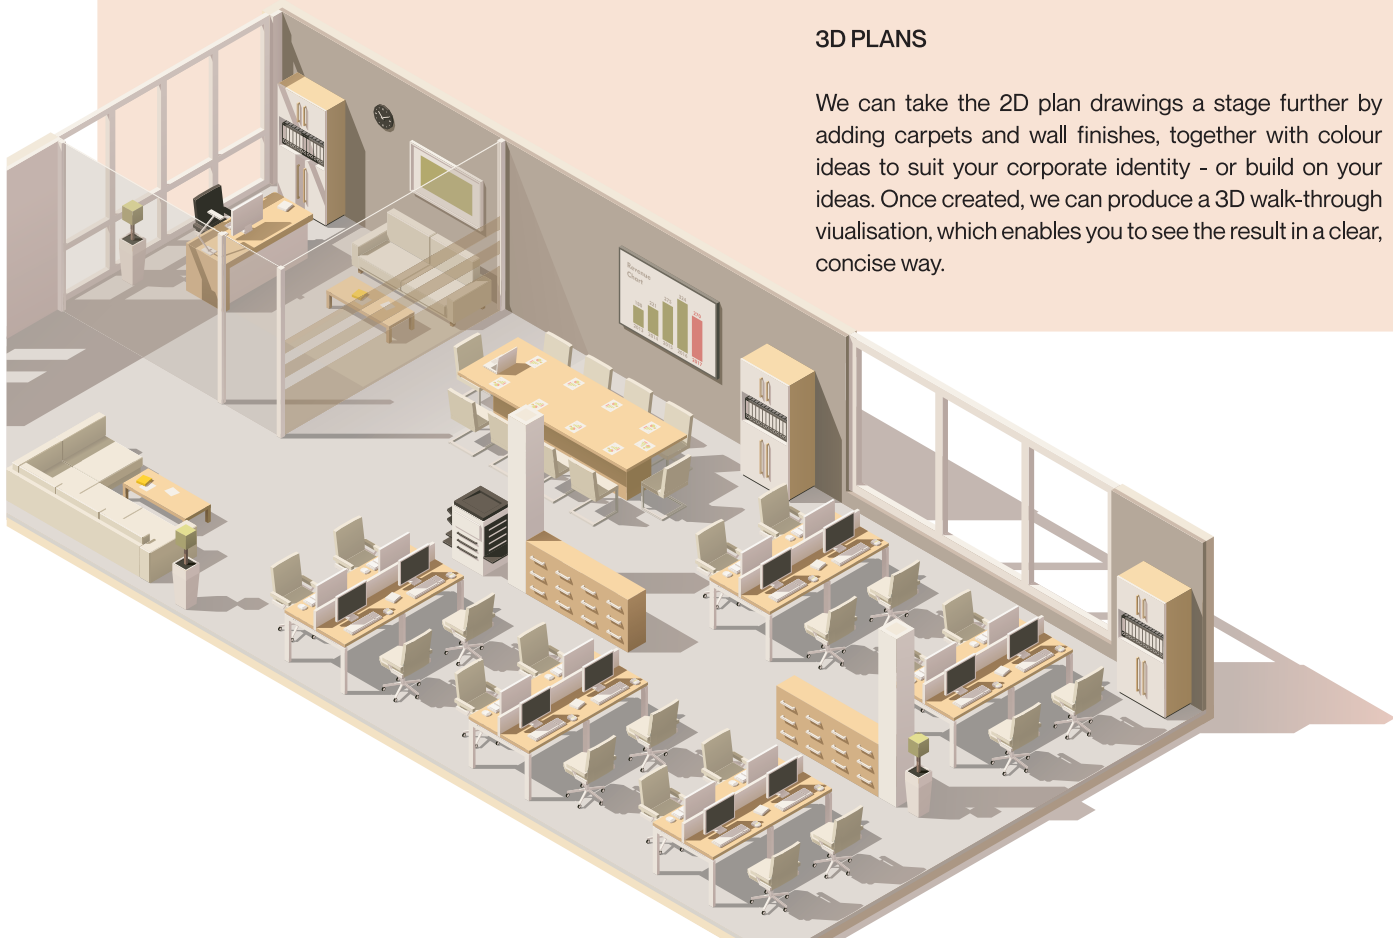

2D PLANS

Our 2D plans turn your measurements into a well thought out working area to suit your particular requirements. Once your furniture plan is complete, we can be as detailed as you need and display network points, lighting, power, and anything else you may require. Want to hang on to a few things? Our 2D plans can show a mix of old and new furniture designed by our experienced team.

3D PLANS

We can take the 2D plan drawings a stage further by adding carpets and wall finishes, together with colour ideas to suit your corporate identity - or build on your ideas. Once created, we can produce a 3D walk-through visualisation, which enables you to see the result in a clear, concise way.

ENJOY

ELITE 2.0

MESH Colour

SEATER Colour

FRAME Colour

Engineered with durability in mind, the chair's sturdy construction ensures long-lasting reliability, supporting you through countless productive days. **ENJOY's** adjustable features allow for personalized comfort, with customizable armrests and a multi-functional tilt mechanism that adapts to your body's needs.

POSH

POSH's full mesh design ensures optimal breathability, keeping you cool and comfortable throughout your workday. Its robust construction gives stability and reliability, providing enduring support for years to come. Embrace a new era of comfort and productivity with POSH.

3D HEADREST DESIGN

The headrest can be tilted, height, forward and backward adjusted to suit the user's individual requirements.

3D ARMREST

Raise, lower, angle and depth adjustments to allow forearms to rest comfortably whilst taking the weight off your shoulders.

LUMBAR SUPPORT HEIGHT ADJUSTMENT

The lumbar support can be positioned for the optimum ergonomic support on user's lumbar at any sitting positions.

BACKREST TILT TENSION ADJUSTMENT

Adjusts angle of back & base proportionally encouraging body movement - increasing blood circulation, therefore reducing fatigue. Additional lock allows you to relax back in one of three positions.

BACKREST TILT TENSION ADJUSTMENT

Adjusts back tension to allow the back to tilt comfortably supporting your body weight when reclining.

SEAT HEIGHT ADJUSTMENT

Raise or lower the seat height on the chair so feet rest flat on the floor allowing the chair to fit individuals of different heights.

SEAT SLIDE ADJUSTMENT

This feature allows you to change the depth of the seat to accommodate the length of the user's legs.

BODY LITE

Freedom of movement and the user's posture are critical points of office health. A poorly designed chair will result in poor posture which causes musculoskeletal ailments which in turn increases absenteeism rates. That is why a well designed chair will not only ensure that the user maintains proper posture but also alleviate some of the pain for those who are already affected. With our latest seating solution, BODY LITE, we have your back.

Old expectations of a chair can finally be replaced by modern design and enhanced comfort. Instead of the traditional big, boxy and bulky designs from the past, Benithem has thrown away that norm and come up with a newer, sleeker and more comfortable design which is aesthetically pleasing as well.

With BODY LITE, freedom of the movement and proper posture are a given. You can rest assured that through our numerous research and development processes, we will only provide the best for you, BODY LITE.

MODULAR CUBICLE OFFICE CONCEPT

The cubicle office concept is the ideal synthesis of concentrated work and communication, allowing spontaneous interaction. Interchangeable free-standing and panel-supported modules create private office to conform individual needs and requirements. Its different heights and widths can be easily set up to best satisfy the characteristics of individual employees and office layout needs with an effectiveness that maximizes work efficiency.

SPECIFICATIONS

Material

Cold Rolled Carbon Steel (JIS G3141 SPCC - SD) & Enamel Finish for long lasting lifespan.

Pre-Treatment Process

7 stages pre-treatment process.

Powder Coating Process

The intensity of the spray will be around 50 micron to 80 micron to be sprayed to the every furniture component.

On baking side, the sprayed powdered furniture will be heated up to above 200 degree celcius to allow the powder to stick firmly to the metal component.

Body Thickness

0.8mm steel thickness after powder coated application.

Base & Track Thickness

1.2mm thickness & for track itself, there is solid steel for special bearing to move sideways left and right.

Base Loading Weight Shelf

Ability to hold 350kg per bay.
Standard UDL 65kg per shelf, able to load up to 100kg UDL upon request.

Advantage of Weeli Gas

Smoothness in moving the bay even the GAS is fully loaded.

- Smooth & stable movement.
- Office design outlook.
- Suitable for putting in any area where the room space is very limited.
- Can blend in with office area.
- UK Standard.
- 10 Years Warranty on Manufacturing Defect.

SPECIFICATIONS

MATERIAL
Cold Rolled Carbon Steel (JIS G3141 SPCC - SD) & Enamel Finish for long lasting lifespan.

PRE-TREATMENT PROCESS
7 stages pre-treatment process.

POWDER COATING PROCESS
The intensity of the spray will be around 50 micron to 80 micron to be sprayed to the every furniture component. On baking side, the sprayed powdered furniture will be heated up to above 200 deegree celcius to allow the powder to stick firmly to the metal component.

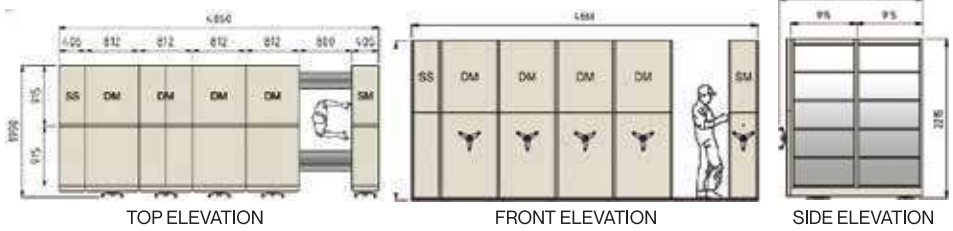

BODY & SHELF THICKNESS
0.8 mm steel thickness after powder coated application.

BASE & TRACK THICKNESS
2 mm thickness for the Base & for track itself, there is solid steel with 19mm thickness for the wheel to move forward & backward.
Added info - solid steel for track dimension is 32mm (W) x 19mm (H)

PLATFORM
1mm PVC laminated particle board with rough surface to prevent skid. All particle board for platform is laminated fully in all sides.

BASE LOADING WEIGHT
Ability to hold 1000kg per bay.

SHELF LOADING
Standard UDL 65kg per shelf able to load up to 100kg UDL upon request.

SAFETY LOCK
Lock Devise on each up stand. This is to prevent the bays moving when users retrieving the files.

- Office design outlook.
- Fully Cladding.
- No skid movement when opening up or closing in.
- Consistency rounding (Opening & Closing)
- UK standards.
- 10 years warranty on manufacturing defect.

CHAIN MECHANISM
UK Technology

SPROCKET
Heavy Duty one - Moving along the chain Track. That is the key ingredient to avoid the Wheel being worn out year after year. That is the caused having fixed no. of rotation of the Steering.

METAL WHEEL
Made by solid steel with heavy duty double bearing. This has made our wheel capability to hold the weight load of 1000kg per bay & to last longer.

SAFETY DEVISES BEARING
Anti Topple feature to prevent the bays to topple when the bays hit hard to the end of the track.

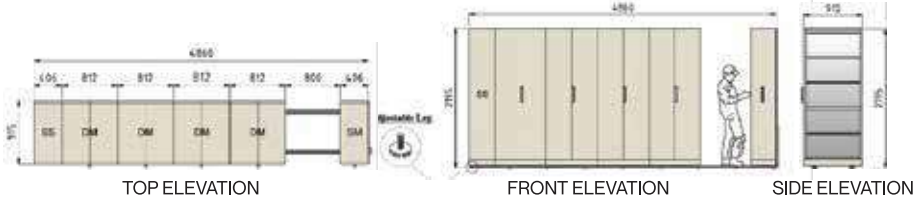

RM 999
* (Per bay)

Size : W1830*L2424*H2195 mm
Walkway : 800 L

- 1 Row Single Static
- 1 Row Single Movable
- 4 Row Double Movable

NYLON WHEEL
Nylon Wheel with heavy duty double bearing attached. This enable to have long lasting compactor & maintained smoothness.

SAFETY BEARING
Anti Topple feature to prevent the bays to topple when the bays hit hard to the end of the track

ADJUSTABLE STUB
For leveling whole compactor system.

SAFETY LOCK
Lock Devise on each up stand. This is to prevent the bays moving when users retrieving the files

OFIS MANUAL MOBILE COMPACTOR

Our Mobile Compactor Filing System are basically designed mainly for high space-saving efficiency storage system. Mainly for files, books, daily documents, stationeries and basically none high value items. Each moving row with bays can be moved on rolls for major saving in aisle space where insufficient floor space is causing major inconvenience in today's modern metropolitan. A line up of our Mobile Compactor Filing System will be able to suit your space and storage requirement.

COLOUR

- LIGHT GREY
- BEIGE

- Per Bay Measurement (Standard) : W915 x D420 x H2115 (mm)
- No. of Shelf Per Bay : With build-in lateral file holder, 4 pieces of lateral shelf
(Max Loading Capacity : 50kg per shelf)
- Material Used : - Cold rolled steel plate for the whole bay's body and shelves (0.8mm)
- Square hollow section and steel flat bar for the track & rail
- Cold rolled steel bearing and bearing base.
- Finish : Powder coating
- Locking Device : A central locking provided on the back of last single mobile bay for simple locking purposes.

MODEL 9079 CALL FOR BEST PRICE

Standard configuration description

1. Armrests, chair legs, fasteners: Made of aluminum alloy materials, large precision casting molds, polished directly after die-casting, and treated with electrostatic powder spraying.
2. Seat plate and back plate material: high-density polyurethane (PU) (inner steel plate) molding, seat plate and back plate are one-piece structure.
3. Cross beam: Made of 40*80mm rectangular steel pipe, 2.5mm thick, thick structure, electrostatic powder spraying treatment on the surface, good bearing capacity, beautiful appearance, smooth surface, no need to reserve openings for fixed structures on the cross beam.

MODEL 9077 CALL FOR BEST PRICE

Optional armrest / leg 1 : With cold-roll steel, metal paint, sparyed static powder after polishing and antirust treatment.

Optional armrest / leg 2 : Die-casting aluminium alloy with polishing treatment and sparyed with static powder.

Seat, back : High density PU with metal frame inside.

Beam : Use high-quality triangular steel tube, sparyed with air-conditioning outdoor paint powder, strong safety performance

MODEL SJ 708 PU CALL FOR BEST PRICE

Seat, back : With 1.5mm high quality cold-rolled steel plate, static powder after antirust treatment, cold consolidation foam forming of high density PU and high quality steel frame inside.

Beam : Use high quality triangular steel tube, sprayed with airconditioning outdoor paint powder, strong safety performance.

Armrest, leg, bracket : Die-casting aluminium alloy with polish treatment and sprayed with static powder.

MODERN TRAINING ROOM SEATING

APTO SERIES

Call for BEST PRICE

Back Mesh

Seat

1. PP PLASTIC BACK

Except mesh back, the back is made of pp plastic, high quality PP material is easy to clean, highly recommended for use in hospital.

2. MESH BACK

Promoted greater ventilation and it could be allows air to flow freely to reach the back, contoured shape provided superior comfort.

3. ALUMINIUM BACK MECHANISM

Aluminium back mechanism can be tilt 12 degrees which allows user to stretch their back.

4. POLYURETHANE MOULDED FOAM

High density polyurethane moulded foam gives the seat flexibility to make the user comfortable, provides great support and best comfort even for long seating hours.

5. POWDER PAINTED & NESTED FRAME

Solid, safe and stable steel base provides strong stability with powder painted frame. The frame also can be nested to saving storage space.

6. GLIDE

Glides are suitable for fixed position.

7. CASTORS

Dual-wheel PU castors are designed for easy manoeuvring.

M35P-C

W665 * D685 * H845 mm

8. SLIDING PP ARMPAD

The pad can be slid forward and backward to firmly support elbows.

9. FOLDABLE WRITING TABLE

The foldable writing board size is 365mm x 285mm x 21mm thick, making the documentation process easier for user. (Maximum loading of writing table are 90kg).

10. LINKING BRACKET (OPTIONAL)

Designed linking bracket to link chairs together.

11. STORAGE BASKET (OPTIONAL)

Storage basket underneath the seat for use in the training room and classroom.

CAFE SERIES MIX & MATCH

CREATE YOUR OWN TABLE

Put your imagination to the mix-and-match fun with a wide selection of tabletops and table legs. The wide variety of colours, shapes, materials and sizes of tabletops provide solutions for impressive dining environment, thanks to the ease of combination and long-lasting characteristics of material.

PORCELAIN TOP (37MM)

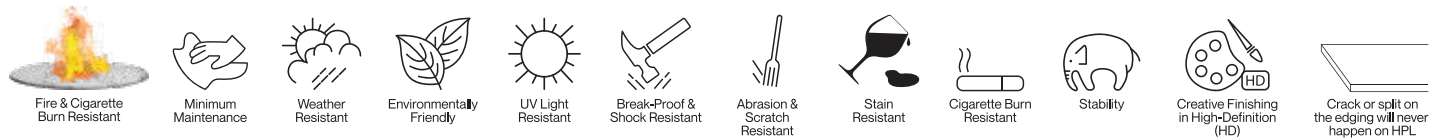

Porcelain tiles have an extremely low level of water absorption and are perfect for spaces that occasionally get damp. They are harder, stronger, and more durable than any natural stone - ever granite and have superior chip resistance. Porcelain tiles are among the most hygienic building materials, completely free of moisture and inhospitable for the growth of bacteria of all kinds. With no surface glaze to wear through, the tile's appearance will stay the same for the life of the tile.

MELAMINE TOP (CHAMFER EDGING)(25MM THK)

Melamine is a popular, budget friendly and durable material that is highly resistant to scratches. Melamine tops have a higher screw holding capacity and are preferred for furniture that can be assembled with screws. The material also has a high resistance to oils and mild acids and can withstand heat to a great extent as well. Melamine is also less prone to staining and relatively cheaper than stone or porcelain.

SCHOOL DESKS & CHAIR SERIES

(ABS / HIGH DENSITY MELAMINE BOARD)

SJ2107

SPECIFICATION

Table : The panel adopts ABS impact resistant plastic one new material injection molding.
Table steel frame : elliptical pipe and steel pipe welding.
Book case : using PP plastic one new material injection molding.
Headrest : new PP impact resistant plastic injection molding.
Foot pedal : Set under the seat plate can turn the turning foot, the tread surface is made of PP impact resistant new plastic integrated injection molding.

SJ2106

SPECIFICATION

Table : ABS engineering material panel, with cup holder, ruler, pen slot.
Panel size : 650*450*25mm
Chair : PP plastic molding.
Desk bucket : PP plastic molding.
Table and chair shelf : 50*20*1.2mm and 60*30*1.2mm oval tube, integrated foot.

SJ2105

SPECIFICATION

Table : Environment-friendly high-density melamine board PVC. edge sealing, table size : 750*500*25mm (thickness).
Chair : PP plastic molding, lifting range:370-450mm.
Desk bucket : using high quality cold rolled steel plate stamping molding, thickness of 0.8mm.
Table and chair shelf : 50*20*1.2mm and 60*30*1.2mm oval tube, integrated foot.

SJ2104

SPECIFICATION

Table top : 600*400mm environmental protection high density melamine board injection molding edge sealing.
Drawer : cold rolled steel one time drawing forming no profit Angle, 460*605*150mm.
Hook : use 0.5mm diameter steel wire stamping on both sides.
Table supervisor : 40*20mm oval seamless cold rolled steel pipe, 1.2mm thick.
Table foot : 50*25mm oval seamless cold rolled steel pipe 1.2mm thick.
Book Network : 500*90*180mm.
Chair board : environmental HDPE plastic blow molding.

SJ2103

SPECIFICATION

Table top : 600*400mm environ -ment-friendly high-density melamine board around the edge injection molding.
Drawer : cold rolled steel one time drawing forming no profit Angle, 460*605*150mm.
Hook : use 0.5mm diameter steel wire stamping on both sides.
Chair frame : the circular tube $\varnothing 22*1.2$ mm and $\varnothing 19*1.2$ mm bending welding form.
Chair board : environmental HDPE plastic injection into fish tail type.

SJ2102

SPECIFICATION

Desktop : 635*450mm high quality ABS injection molding.
Chair cover / table bucket : High quality PP injection molding.
Desk frame : Using denier tube 60*30*1.2 mm and ABS connector.
Chair frame : 20*50*1.2mm and 30*60*1.2 mm high-quality denier tubes. Height adjustable.

SCHOOL / UNIVERSITY CLASSROOM SEATING SERIES

UNIVERSITY FIXED SEATING SJ320

- Seat and back : High density board surface process fireproof board, 15mm thickness seat board, 16mm thickness back board;
- Leg : Die-casting aluminium alloy molding.
- Coating : After pickling, phosphating and antirust treatment, static powder spraying and high- temperature baking;
- Seat recovery : Spring plus damping for flexible recovery, and free from noise,
- Writing table basket : Writing table basket: High strength sheet metal support formed by welding of 2mm cold-rolled steel tube and steel plate.
- Writing table : Writing table: 25mm thickness high-density particleboard, double-sided pressed fireproof board and PVC process edging are adopted.

UNIVERSITY FIXED SEATING SJ322

- Back panel : Made of curved multi-layer board, double-sided pressed high-quality fireproof board, thickness 14mm.
- Seat : Made of curved multi-layer board, double-sided pressed high-quality fireproof board, thickness 14mm.
- Writing board : multi-layer board, double-sided pressed high-quality fireproof board, 20mm thick recoverable.
- Standing feet : The standing feet are customized square tubes of 90-42-2.0, with welded steel feet. The surface is spray-coated with electrostatic powder spraying, and the bottom is equipped with a plastic foot cover.
- Recovery mechanism : adopts damping recovery mechanism, no sound and slow rebound.
- Book net : Iron book net, which is welded by iron wires with diameters of 5mm and 6mm and fixed pieces. The surface is rust-removed and then electrostatically powdered.

UNIVERSITY FIXED SEATING SJ323Y

- Seat and back board : 12mm thickness high density board surface process fireproof board.
- Seat and back sponge : Back density 30kg/m3, seat density 40kg/m3.comfortable to seat.
- Leg : 1.5mm thickness high quality steel tube, and sheet metal parts are stamped and welded by die.
- Seat recovery : The seat bag adopts silencing gravity recovery, and the seat limit adopts PU foaming process, which is beautiful and noise free.
- Writing table bracket : High quality class a cold-rolled 2mm steel pipe and steel plate are welded to form high-strength sheet metal support.
- Writing table : 25mm thickness high-density particleboard, double-sided pressed fireproof board and PVC process edging are adopted.
- Anti rust coating : after electrostatic baking and powder spraying at high temperature.

SJ6602

SOUND ABSORPTION

Pass the acoustic test, the special sound-absorbing holes on the seat plate can effectively reduce the noise and greatly improve the sound quality in the theater.

FLAME RETARDANT

The seat & back is made of cold foamed foam, which can be processed with flame retardant function, so that the seat is not easily deformed under long-term use and is durable.

RECOVERY MECHANISM

Spring and damping recovery mechanism, sound absorption and noise reduction, stable and reliable.

COMPRESSION TEST

Seat comprehensive testing machine: Carry out durability test on the auditorium chair, and test the mechanical structure safety, stability, strength and durability of the seat.

ROOF POD SERIES

CALL FOR BEST PRICE

benithem[®]
Let our Quality do the Talking...

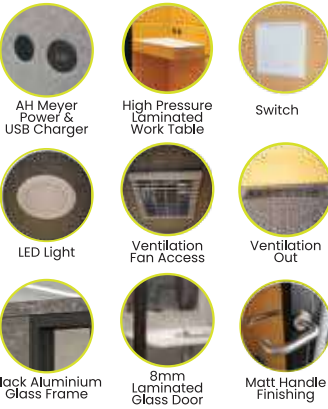

ROOF SINGLE POD

An even greater invention to maximise noise reduction and enhance seclusion to make the environment a viable one to work in, be it for a group discussion or to focus on individual work.

HIGH ACOUSTIC RATING
Roof Double Pod offers an acoustic workplace for 1-2 people to work away from their desk. No longer bothering or being bothered by co-workers.

ROOF MEETING POD

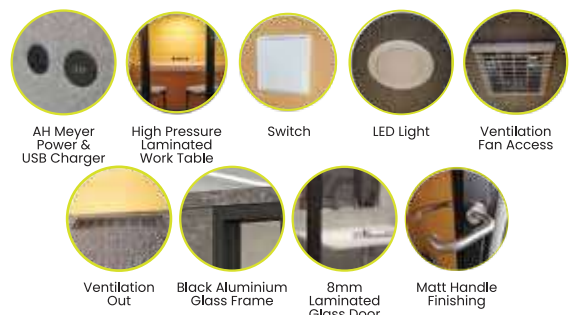

A combination of functionality and ergonomics, ROOF DOUBLE POD is aesthetically pleasing and practical to have in a workplace. Furthermore, with a variety of colours to choose from, you can mix around to complement the view of the whole office.

ROOF DOUBLE POD T1-G

HIGH ACOUSTIC RATING
Roof Double Pod offers an acoustic workplace for 1-4 people to work away from their desk. No longer bothering or being bothered by co-workers.

ROOF DOUBLE POD T2
